— ✱ — PRICE LIST. ✱ —  
OF

Cedar Home Nursery,  
FOR SPRING 1894.

WEATHERBY, - MISSOURI.

A. L. ZIMMERMAN, Prop.

TO THE PUBLIC.

My trees are nearly all of my own growing. I do not propagate new and untried kinds and offer them for sale at high prices, as nine-tenths of them are perfect swindles and not as good as those we already have. But wait till they have been thoroughly tested, then propagate and sell same as other kinds if found worthy. My lists will be found to contain the best kinds and those suited to our part of the country. My prices are very low and my stock young and thrifty.

## —PRICE LIST.—

The following kinds at 25c per foot: Hovy's Golden, Douglas' Golden and Silver Tip Arborvitæ, Irish Juniper, English Juniper and Golden Juniper.

## ARTICHOKE.

This is a good root crop to raise for hogs—it is claimed they will yield 500 to 800 bushels per acre—they are good for cattle or sheep—\$1.00 per bu. \$2.50 per bbl.

## VEGETABLE PLANTS, ETC.

I have in their season for planting, Early Cabbage, Tomato, Sweet Potato and other vegetable plants.

For further particulars address, A. L. ZIMMERMAN,  
Weatherby, Mo.

## DISTANCES FOR PLANTING.

Apple.....	25 feet	Strawberries.....	1 to 2x4 feet
Pear, Standard.....	15 feet	Raspberries.....	3x8 feet
Pear Dwarf.....	12 feet	Blackberries.....	3x8 feet
Cherry.....	15 feet	Currants and Gooseberries.....	3x6 feet
Peach and Plum.....	18 feet	Grapes.....	8x10 feet

These distances are for large orchards and berry patches. In gardens and town lots, where patches are small, they can be planted closer.
